

eSchoolBook

This training guide explains how to post report cards.

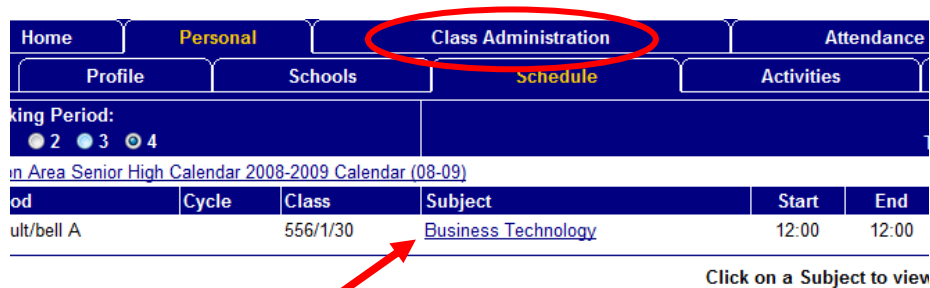

Every Friday before noon, teachers are required to post report cards in eSchoolBook.

This serves several purposes:

- Provides the data needed for generating the eligibility report
- Creates a summary of current grades for parent and student view
- Gives the teacher an opportunity to provide comments on an ongoing basis throughout the marking period.
- Eliminates the need for the mid-marking period “progress report”

To post report cards in eSchoolBook:

1. Upon logging into eSchoolBook, click on the Class Administration tab.

2. Click on one of your classes.

3. Click on the Grades tab and then the Post Report Cards link.

7. You can make any adjustments to the report card and add comments before making it viewable. Please note: the Actual Grade (number in yellow above) is what will be reported in the Score (see below).
8. To actually post the report card, click the Update button. The Report Card will then be viewable to parents and students. (You can also delete report cards if needed using the Delete button)
9. Repeat this process for each of your classes.

Here's an example of what the student and parent will see after you post your report card each week:

(It is a summary of the grade along with comments. You can choose two preset comments as well as add your own.)
